

## 7 Points that Show the Bible is True

1. Hundreds of **prophecies** stated in the Bible have been specifically fulfilled. They were fulfilled hundreds to thousands of years after they were promised. Some are yet to happen but because of the hundreds that have already been perfectly fulfilled we know these yet to come will also take place.

2. **Eyewitnesses** wrote about what they saw during the lifetime of other eyewitnesses.
3. **Embarrassing** testimony. People do not lie, or allow lies to be spread about them, to make themselves look bad. Embarrassing testimony in the NT includes Peter's denial of Jesus, not once but three times, and the women's discovery of the empty tomb while the men were hiding out of fear.

4. **Willing** to die rather than deny the truth about eternal life through Jesus. All of the disciples suffered greatly and most were killed, except John, for their testimony/belief that Jesus is God, the only Savior. No one suffers for something he knows is a lie.
5. **Archaeology** and history confirms places, people, and dates mentioned in the Bible. There are many non-Biblical records and pictures of artifacts available to view and study confirming Biblical events and places.

6. **Manuscripts** (copies) - There are more ancient copies of the Bible or documents quoting the Bible than any writing of an ancient author studied in school today. If you stacked up the manuscripts of an ancient author, the stack would average about four feet tall. On the other hand, if you stacked the discovered Greek New Testament manuscripts we have today that stack would be about one mile tall.

7. The **Heavens** declare God. "The heavens declare the glory of God, and the sky above proclaims his handiwork." (Psalm 19:1)
